Worktop decor

225 oxide

295 bronze

315 stone grey

320 dark cement

730 oak Marcato
Important: Possible colour deviation due to different material for front and environmental colour 730 oak Marcato.

775 oak sepia

1707 concrete dark

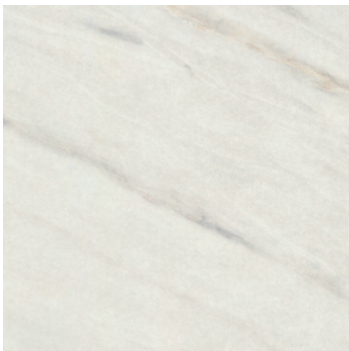

2118 Catania oak
To suit surround decor 865 Catania oak.

2142 arctic white
To suit surround decor 125 arctic white.

2152 Cement grey
To suit surround decor 360 cement grey.

2179 fine marble white

2180 Tibetan sandstone

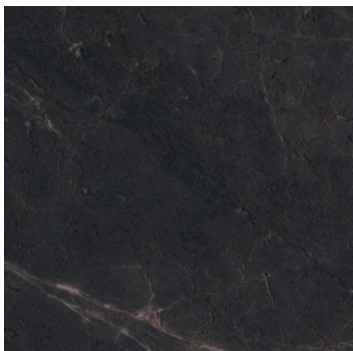

2182 mocca

2186 concrete brown

2187 natural wild oak

2188 marble Emperador

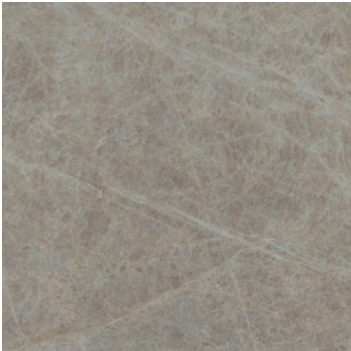

2189 Travertin Alcamo

2190 Travertin Tivoli

2191 quartzstone white

2192 quartzstone beige

2193 Perla softblond

2194 Perla taupe brown

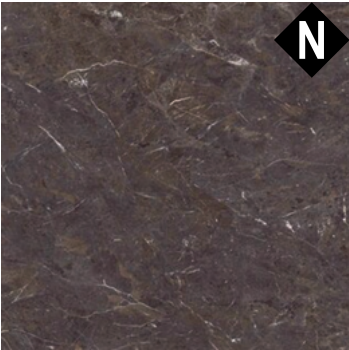

2195 wool white granite

2196 oak barrique

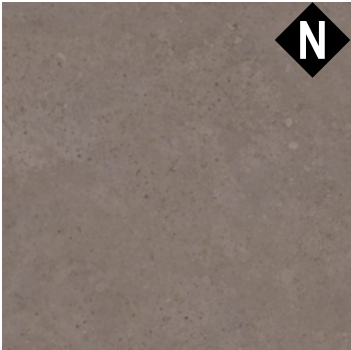

2197 ceramic beige

2198 Santo brown

2199 Elba beige

2200 Serafina greige

2201 Nizza sand

3150 marble Terramo

3160 stratus grey pearl

3290 Angora grey

3430 sandstone

8200 urban oak

8250 cashmere oak

16 mm thick

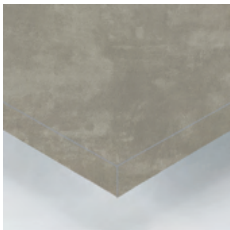

A1-...-16
Front edge with PP edging
1.5 mm thick.
2 x R = 2 mm

Edging in worktop finish

25 mm thick

A2-...-16
Front edge with PP edging
1.5 mm thick.
2 x R = 2 mm

Edging in worktop finish

39 mm thick

A4-...-16
Front edge with PP edging
1.5 mm thick.
2 x R = 2 mm

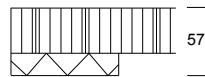

Edging in worktop finish

57 mm thick

A6-...-08
Front edge with laminate edging.
The appearance of a worktop
57 mm thick is achieved via the
doubled frame construction.

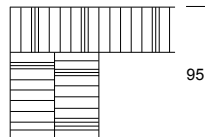

Edging in worktop finish

95 mm thick

A10-...-08
Front edge with laminate edging.
The appearance of a worktop
95 mm thick is achieved via the
doubled frame construction.

Edging in worktop finish

AB1

Corner connections

For a complete 90° worktop corner connection, order 2x EAP-F 090.

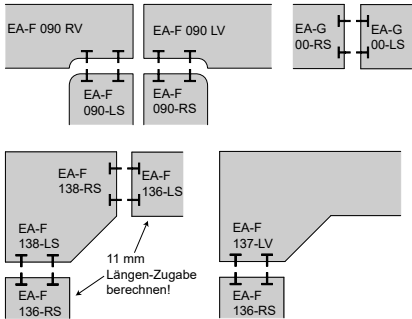

For a complete worktop connection other than 90°, order 2x EAP-F 000.

Differing versions of sub-items to the individual worktops will then be confirmed according to the following drawing.

In addition to tongue and groove (Lamello), all worktop corner connections will also be joined with extra screw fittings.

In conjunction with the supplied sealing compound, these provide for a water tight and highly stable joint.

In the case of lateral worktop connections, the necessary length allowance will be taken into account in production.
